

ALTO SHAAM®

Hot Holding

Rotisserie Companion

AR-7H

AR-7H is shown with optional double pane curved glass doors and electronic control.

- ◆ **Halo Heat...** a controlled, uniform heat source that gently surrounds foods for better appearance, taste, and longer holding life.
- ◆ Smart styling, advanced design.
- ◆ Adjustable thermostat and temperature gauge monitor inside air temperature.
- ◆ Solid state electronic control option simplifies temperature setting, has a clear, easy-to-read LED display, and is adjustable in increments of 1 degree.
- ◆ Single pane low-e glass doors are easy to clean while maximizing merchandising appeal and conserving heat loss.
- ◆ Stackable with an identical holding cabinet or matching rotisserie oven.

Sizes and Specifications

AR-7H is shown with optional double pane curved glass doors and electronic control.

AR-7H The companion holding cabinet includes heavy duty, non-magnetic stainless steel construction throughout. The cabinet is controlled by one (1) ON/OFF power switch, one (1) adjustable thermostat, 60° to 200°F (16° to 93°C); includes one (1) indicator light; and one (1) holding temperature gauge to monitor inside air temperature. Single pane, low-e glass door and magnetic latch on the control side is hinged right. On the non-control side, the door is hinged left. One (1) rugged, easy-grip curved handle located on the control side and one (1) set of 5" (127mm) casters are included.

Catch your customers eye and promote impulse sales with optional double pane doors and exterior curved glass. A free-flowing air space between panes is easy to clean and will further reduce heat loss.

A software option to interface with a Windows® based PC for HACCP documentation and computer control kitchen management capability is also available.
